

# Report of Thorough Examination

**NOTE:**

This form may be used to record the thorough examination and testing of Lifting Equipment, as set out in the Safety, Health and Welfare at Work (General Application) Regulations, 2007. This form was produced by the HSA to facilitate the recording of information, as per Schedule 1 Part E of these regulations. This form must be completed by a **competent** person. This is not an approved or statutory form. Reports of Thorough examination may be produced in other formats.

| Type of lifting equipment:                                                                                                                    | Excavator                                     |            |  |  |  |  |                      |      |   |   |   |   |
| Serial Number:                                                                                                                                | HCMDC451K00506689                             |            |  |  |  |  | Year of manufacture: | 2019 |   |   |   |   |

| Safe Working Load | Configuration(s) |
|-------------------|------------------|
| 2100 KGS          | @ 8.5 METERS     |
|                   |                  |
|                   |                  |

Note: Each configuration should reflect the working arrangements, for example length of jib; fly jib; radius; angle; ballast; number of rope falls; height under hook. Please detail the safe working loads for all configurations, as per manufacturer's instructions. Use additional sheets if more than three configurations.
